

# What is TOG GaitScan™?

GaitScan™ is state of the art computer hardware and software that helps your health care practitioner assess and analyze your feet. This analysis combined with your practitioners' experience and knowledge detects abnormal foot function which may be affecting your feet or other parts of your body.

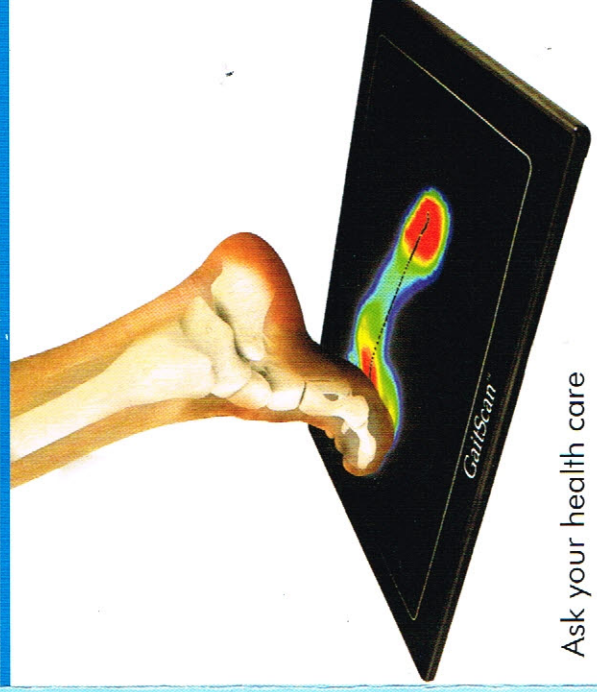

Consult your health care practitioner today at the address provided below to find out more information about orthotic therapy.

1st Floor, Roslevan S.C, Tulla Rd, Ennis,  
Co. Clare, Ireland.
